ABOUT DIRECTOR

Manoj Kumar Singh is a healthcare industry leader known for his practical approach and deep commitment to improving patient care. With years of hands-on experience in medical equipment manufacturing, he founded Unik Surgical with a simple goal — to make reliable, high-quality surgical solutions accessible to healthcare facilities of all sizes.

What began as a trader in Patna has now grown into a trusted name, serving hospitals and clinics across the country. Manoj's focus on precision engineering, transparent business ethics, and long-term client relationships has helped Unik Surgical earn the confidence of medical professionals.

His leadership continues to guide the company toward innovation and responsible growth, while staying rooted in the belief that every piece of equipment should ultimately contribute to better patient outcomes.

CHAPATI EQUIPMENT

Chapati or Roti is a common staple food in parts of Northern South Asia. Chapati often termed as Indian Bread is a most consumed food prepared in wheat flour as a common diet of North India.

We at Kitchen Concept works design and manufacture Chapati Making machines as a complete unit for small, medium and large establishments. Our chapati making machines help in making chapatis in a most hygienic manner.

Manual Preparation is done by chapati plate cum Puffer. The manual & semi Automatic machines are assisted by Dough kneader, Chapati Rolling Table & Chapati collection trolley. Chapati Rolling Table is not Required for Fully Automatic machine.
